---

**OBJECTIVE**- Third year Computer Science student with experience in programming, software engineering, and web development seeking internship in summer of 2026 in software engineering.

## EDUCATION

### **Bachelor of Science, Computer Science**

Expected Graduation May 2027

**Rochester Institute of Technology** | Rochester, NY

GPA: 3.67

**Relevant Coursework:** Computer Science I and II, Discrete Math for Computing, Mechanics of Programming, Introduction to Computer Science Theory, Introduction to Software Engineering, Principles of Data Management, Analysis of Algorithms, Concepts of Computer Systems, Introduction to AI, Concepts of Parallel and Distributed Systems, Professional Communications

### **Master of Science, Cybersecurity**

Expected Graduation May 2028

**Rochester Institute of Technology** | Rochester, NY

### **High School Diploma, Software Engineering**

June 2023

**Brooklyn Technical High School** | Brooklyn, NY

## SKILLS

Languages: Java, Python, C, C#, MIPS Assembly, Delphi, SQL, HTML/CSS/JS  
Technologies/Frameworks: REST, Angular, Jira, Agile, Zendesk, Git/Bitbucket

## PROJECTS

### **Courtyardtheband.com (Personal, Individual)**

September 2024 - Present

- Developed website for student band Courtyard using HTML, CSS, JS, Bootstrap, and responsive web design.
- Deployed courtyardtheband.com with custom domain and 404 page, redirects, and embeds.
- Maintained website with relevant information and added sections as needed.

### **U-fund (Academic, Team)**

December 2024

- Used Angular, TypeScript, and REST to build a web-application for fictional wildlife relief organization.
- Learned and practiced software engineering principles and frameworks like Scrum and Agile within a team.
- Won award amongst class section for best team performance.

## WORK EXPERIENCE

### **Software Developer**

Alpine Software Corporation | Fairport, NY

May 2025 – Present

- Create, maintain, test, and document new and existing software application features using Delphi, SQL, Jira, and Git.
- Meet and communicate with clients to scope requirements and ensure customer satisfaction.
- Collaborate closely with the support and implementation teams as well as other developers to troubleshoot issues and streamline deployment.
- Mentor new co-op developers and create documentation for common or discovered development processes.

### **Student Ambassador Captain**

Rochester Institute of Technology | Rochester, NY

January 2024 – Present

- Conduct engaging and informative campus tours for prospective students and their families.
- Share insights into the college's culture and my own experiences on student panels.
- Train new ambassadors and evaluate their tours.

### **Assistant Supervisor**

FDR State Park | Yorktown Heights, NY

May 2024 – August 2024

- Assisted the supervision of the FDR state park “pool crew”, responsible for tasks crucial to the upkeep and operation of the largest pool across all New York State Parks.
- Promoted to Assistant Supervisor from Pool Crew after one month due to exceptional effort, leadership, and reliability.

## VOLUNTEERING

### **RIT Student Marketing Advisory Council**

March 2024 - Present

- Served with a team of fellow students on the university-wide committee.
- Reviewed draft marketing collateral (including printed materials, videos, photos, and digital media).
- Shared feedback and insights influencing the development of marketing materials relevant and engaging for prospective students.
